WHY APHCTIS?

Transforming Challenges into
Opportunities Across Africa

**APHCTIS
2026**

Connecting Innovation to
to Universal Healthcare

“Africa stands at a defining moment to build resilient, inclusive, and future-ready primary healthcare systems.”

THE CHALLENGES

We must address today

Limited Access to Quality Care

Millions across Africa still lack access to essential primary healthcare services.

Workforce Shortages & Gaps

Severe shortages of skilled healthcare professionals, especially in rural areas.

Weak Infrastructure & Systems

Inadequate facilities, supply chains, and health information systems.

Insufficient & Inequitable Funding

Sustainable financing for primary healthcare remains a critical challenge.

High Disease Burden

Rising communicable and non-communicable diseases continue to strain health systems.

THE OPPORTUNITIES

We can unlock together

Digital Health & Innovation

Leveraging technology, data and AI to deliver smarter, more accessible healthcare.

Investment Growth

A rapidly growing healthcare market attracting global and local investors.

Stronger Primary Healthcare

Rebuilding PHC as the foundation for universal health coverage.

Public-Private Partnerships

Collaborative models driving scale, efficiency and sustainability.

Youth, Research & Innovation

A new generation of innovators and researchers shaping Africa's health future.
